 **blum**[®]

Innovative technology

TIP-ON BLUMOTION combines the advantages of the TIP-ON mechanical opening support system with reliable BLUMOTION dampening for silent and effortless closing – 100% mechanically. This advanced motion technology from Blum can also be used with MOVENTO, the concealed runner system for wooden drawers.

Small front gap

TIP-ON BLUMOTION has a front gap of just 2.5 mm so it is ideally suited for use in different furniture.

Four-dimensional adjustment

The four-dimensional adjustment ensures a precise gap layout. The integrated depth adjustment can be made tool-free using the adjustment wheel.

Reliable function

It is possible to pull to open or push to close without difficulty, and TIP-ON BLUMOTION will remain fully functional.

Easy assembly

Tool-free assembly is possible for all TIP-ON BLUMOTION components. The adjustment template can be used to precisely and conveniently adjust the front gap to 2.5 mm.
